How to start your orphan drug development

**STakeholder Mapping**
- Are there patient organizations?
- Are there community advisory boards? - CABs
- Are there stakeholder networks? - ERNs and/or CRNs, - IRUD
- Are there general development support platforms and infrastructures? - c4c, EJP-RD
- Development Landscape Analysis / Horizon scanning

**Available Disease Information**
- Natural History Studies
- Diagnostic Tools
- PCOMs
- Identified Biomarkers
- Coding of rare disease

**Funding Resources**
- Private funding
- Public funding

**Target Patient Value Profile**

* If this information not available, the first step is to build up the stakeholder mapping, and then generate data to the best of the possibilities.
